Accessible KITCHENS

We have over 35 years' experience of manufacturing and supplying kitchens to the public and contract sector. Working with over 100 local authorities and housing associations throughout England and Wales.

Our focus is quality and service, operating our own fleet of vehicles delivering throughout England and Wales ensuring we have full control over every contract from start to finish.

Premiere

Ensuring Delivery of British-Made Kitchens

Our accessible kitchens are designed to empower every individual, with seamless functionality, intuitive features, and contemporary design.

From adjustable worktops to easy-reach storage solutions, every detail is considered to support freedom, confidence, and everyday joy in the home.

We understand that no two users are the same. That's why our kitchens are designed with flexibility at their core, supporting wheelchair users, individuals with limited mobility and multi-generational households.

KITCHEN RANGES

We offer a choice of two kitchen ranges in our accessible offering. Providing a wide range of colour choices to make each kitchen as individual as its user.

Senator

The Senator range is available in an extensive selection of finishes, from authentic natural woodgrain and painted wood effects to contemporary smooth matt options. This versatility allows you to create anything from classic, timeless spaces to sleek, modern interiors. Combining style flexibility with environmental responsibility, the Senator range is also 100% recyclable.

Available in 12 finishes

White Grained	Platinum White
Cashmere Grained	Taupe
Grey Grained	Dakar
Onyx Grained	Native Oak
Light Grey	Grey Ash
Dust Grey	English Walnut

Patina

The Patina range brings high-gloss kitchen design to a broader market without compromising on quality. Featuring durable 18mm doors it offers both style and long-lasting performance. Designed with sustainability in mind, the Patina range is 100% recyclable — making it a smart choice for both the home and the environment.

Available in 2 finishes

BASE UNIT BRACKETS

Variable height units can be used instead of regular base units where either additional low lever clearance is required, or a specific working height. Variable height units are installed onto the wall using concealed brackets. These remove the need for legs and give flexibility to the height they are set.

Brackets are supplied as a set

A

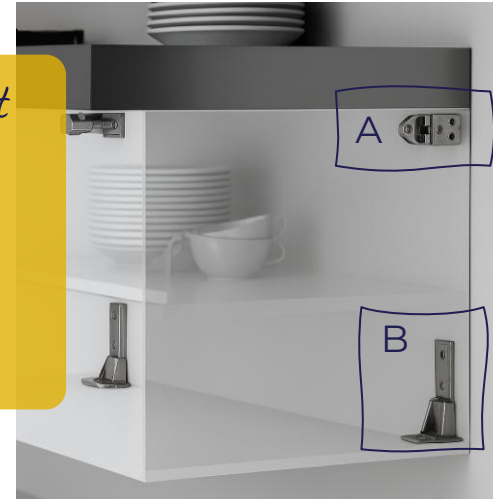

DW-BRKT-BACK-SUP
DW-BRKT-WALL-PLT

B

DE-BRKT-LOW-SUP

MOBILITY BASE UNITS

2 Drawer Mobility Unit

DM-2D-60
600mm W x 630mm H x 580mm D

A useful mobile unit which can be placed in the kitchen where it suits the user best. It also includes a convenient upstand to prevent items from falling.

OVEN HOUSING

Premiere

Ensuring Delivery of British-Made Kitchens

We offer two oven housings which provide a choice of oven and pull-out shelf heights. The position of these elements is important to provide the correct ergonomics and safe configuration for the user.

Accessible 3 Drawer Oven Unit

DAP60-3D-1S
600mm W x 1965mm H x 580mm D

Accessible 1 Drawer Oven Unit

DAP60-1D-1S
600mm W x 1965mm H x 580mm D

VARIABLE WORKTOPS

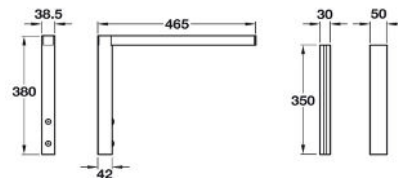

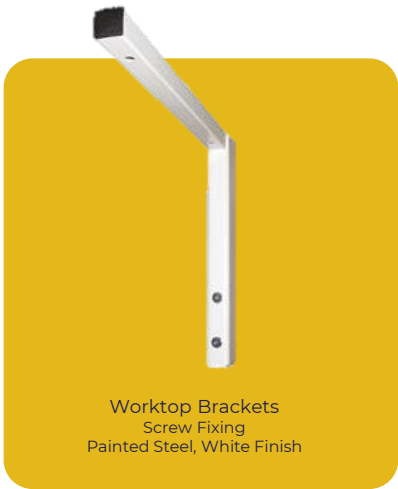

There are two worktop support options available. A fixed wall bracket which can be set to the desired height during installation, or a rise-and-fall system which can be adjusted by the user.

Option 01

Worktop on fixed wall brackets

Fixed wall brackets

The number of brackets required for your application will be determined by the kitchen designer.

Option 02

Worktop on fixed wall brackets

Adjustable rise-and-fall worktop system

Manual

Width 500-3000mm
Depth 580-620mm

Electric

Width 500-3000mm
Depth 580-620mm

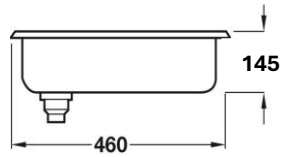

Worktops
Are secured to the bracket or rise-and-fall frame. Splashbacks to be fixed to the wall.

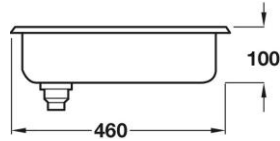

Fascia Rail
This conceals and helps to prevent touching the underside of hobs and sinks. Plinth is provided for this, which needs to be reduced to 80mm high.
